

Eastern Oregon Coordinated Care Organization 2017 Incentive Measure Dictionary

Claims Based Measures:

Measure Definitions	Data Source
<p>Adolescent Well Care Visits Adolescents age 12-21 with at least one comprehensive well-care visit Well care visit include:</p> <ul style="list-style-type: none"> • History • Physical exam that includes weight, height, vision, heart, lungs, skin and genitalia • Assessment & plan 	Medical claims
<p>Alcohol and Drug Misuse Screening (SBIRT) Members age 12 and older who received alcohol and drug misuse screening during outpatient visit. Outpatient visits include office visit, home visit, and/or preventive medicine. Full screen or full screen + brief intervention services are required for reimbursement. A brief screen does not count toward this measure.</p>	Medical claims
<p>Child Immunization Status Combo 2 Children who turned 2 years of age in the measurement year and had all of the following specified vaccinations: Dtap, IPV, MMR, HiB, Hepatitis B, VZV.</p>	Public Health Division Immunization Program Registry (ALERT)
<p>Dental, Mental, Physical Health Assessment for Children in DHS Custody Identified children/adolescents 0 – 17 years of age in DHS custody for 60 days who received a physical health assessment, a mental health assessment, and a dental health assessment within 60 days of the notification date (when CCOs are notified the member is in DHS custody, or within 30 days prior to the notification date.)</p> <ul style="list-style-type: none"> • Age 1-4 mental health assessment not required • Age < 1 only physical health assessment required • First Tooth or Smiles for Life certified medical providers can conduct and code for a dental assessment (D0191) when performed during a well-child check 	Dental, behavioral health, and medical claims
<p>Dental Sealants on Permanent Molars for Children Children ages 6-9 and 10-14 who received a sealant on a permanent molar tooth Dental hygienists can determine need and apply sealants without the direct supervision by a dentist</p>	Dental claims
<p>Developmental Screening (0-36 months) Children who turn 12 months, 24 months, or 36 months, in 2017 who had a developmental screening. Screening results must be reviewed and interpreted by the provider (physician, NP or PA), discussed with the family, and the patient record must document the screening tool, results and actions taken. Another healthcare provider or early learning and development provider may <u>initiate</u> a developmental screen with a family. As long as the screening tool and full set of answers are shared with the primary care provider who completes the required steps of interpretation, documentation and discussion with the family, the provider (physician, NP or PA) can appropriately bill. While screenings can be completed and scored in advance of provider review and interpretation, results should be reviewed with the family within one month of completion of the screen to be considered valid or current.</p>	Medical claims
<p>Effective Contraceptive Use Women age 18-50 with evidence of one of the following methods of contraception in 2017: sterilization, IUD, implant, contraception injection, contraceptive pills, patch, ring, or diaphragm.</p>	Medical and pharmacy claims

Surveillance of existing contraception is included in this measure – which are women utilizing long-acting reversible contraception or permanent contraceptive options who would not otherwise have a pharmacy claim or procedure code in 2017.	
Emergency Department Visits Each visit to an ED that does not result in an inpatient encounter (multiple ED visits on the same date of service is counted as 1 visit)	Medical claims
