

Oregon Center on
Behavioral Health &
Justice Integration

Our Team

History

- OCBHJI was founded in 2017 through a partnership with the Oregon Health Authority (OHA)
- Contract is managed by Greater Oregon Behavioral Health Inc. (GOBHI) the Eastern Oregon Coordinated Care Organization

Goals

- Promote diversion and deflection for individuals with behavioral health concerns*
- Promote collaboration, early identification, and service connection
- Increase access to information and knowledge

Free Services We Offer Throughout Oregon:

- Sequential Intercept Mapping (SIM)
- Civil Commitment Mapping (CCM)
- Crisis Intervention Team (CIT)
- Aid & Assist Mapping
- Strategic Planning/TA (**technical assistance**)
- Mental Health First Aid (MHFA) Training
- Law Enforcement 101
- Trauma-informed trainings

Oregon Center on
Behavioral Health &
Justice Integration

Benefits to Your Community

- HB 4002-Deflection Program/Process Development
- Create an action plan
- Community collaboration
- Networking
- CIT for CCOs and CMHPs

HB 4002-Deflection Program

What is HB 4002?

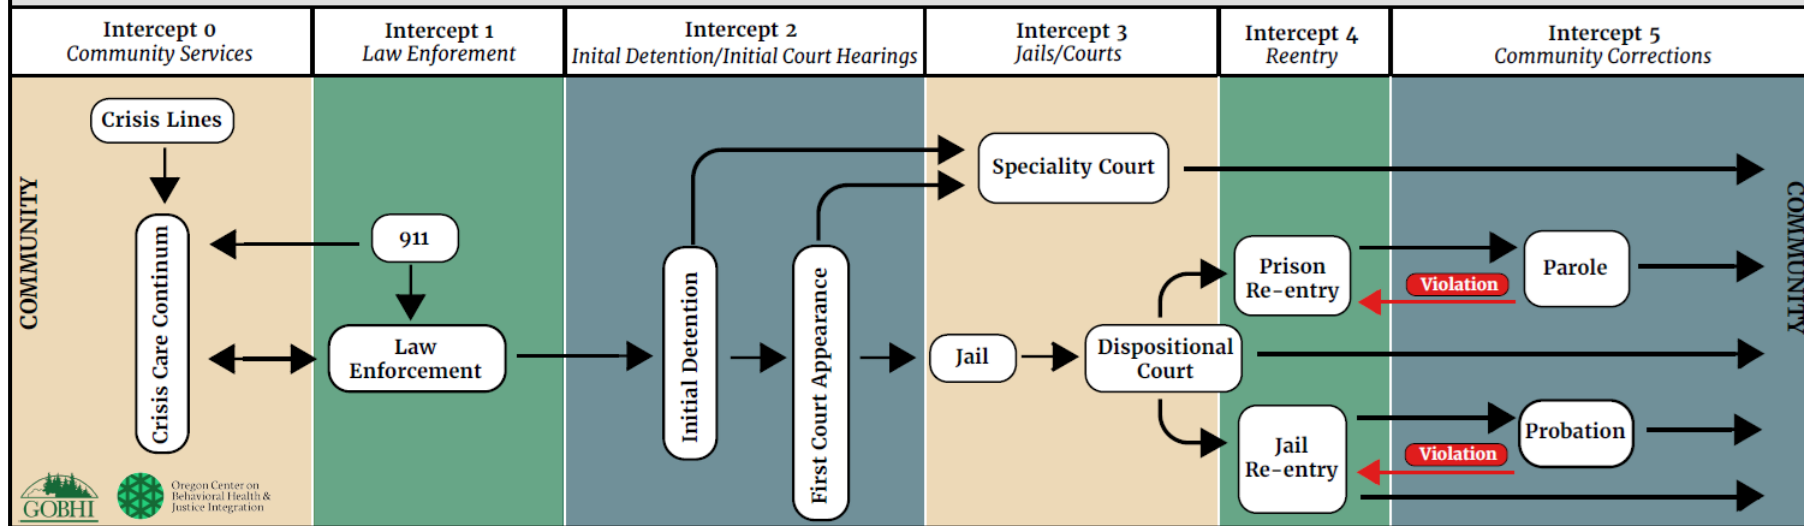

- The measure removes barriers and establishes programs and policies aimed at improving access to substance use disorder (SUD) treatment. It also establishes a criminal justice framework for possession or delivery of controlled substances designed to encourage treatment over penalties such as jail or probation.
- OCBHJI/ GOBHI provides technical assistance to counties implementing Deflection programs.
- Developing county specific trainings on deflection program implementation

What is a Sequential Intercept Mapping (SIM)?

- A SIM is a workshop that assists a community in identifying system gaps of the criminal justice system as it pertains to individuals with BH needs and/or IDD, which then informs action planning later in the workshop
- Technical assistance provided
- Counties can participate in re-mappings after:
 - Completion of prior SIM
 - Major changes within the system

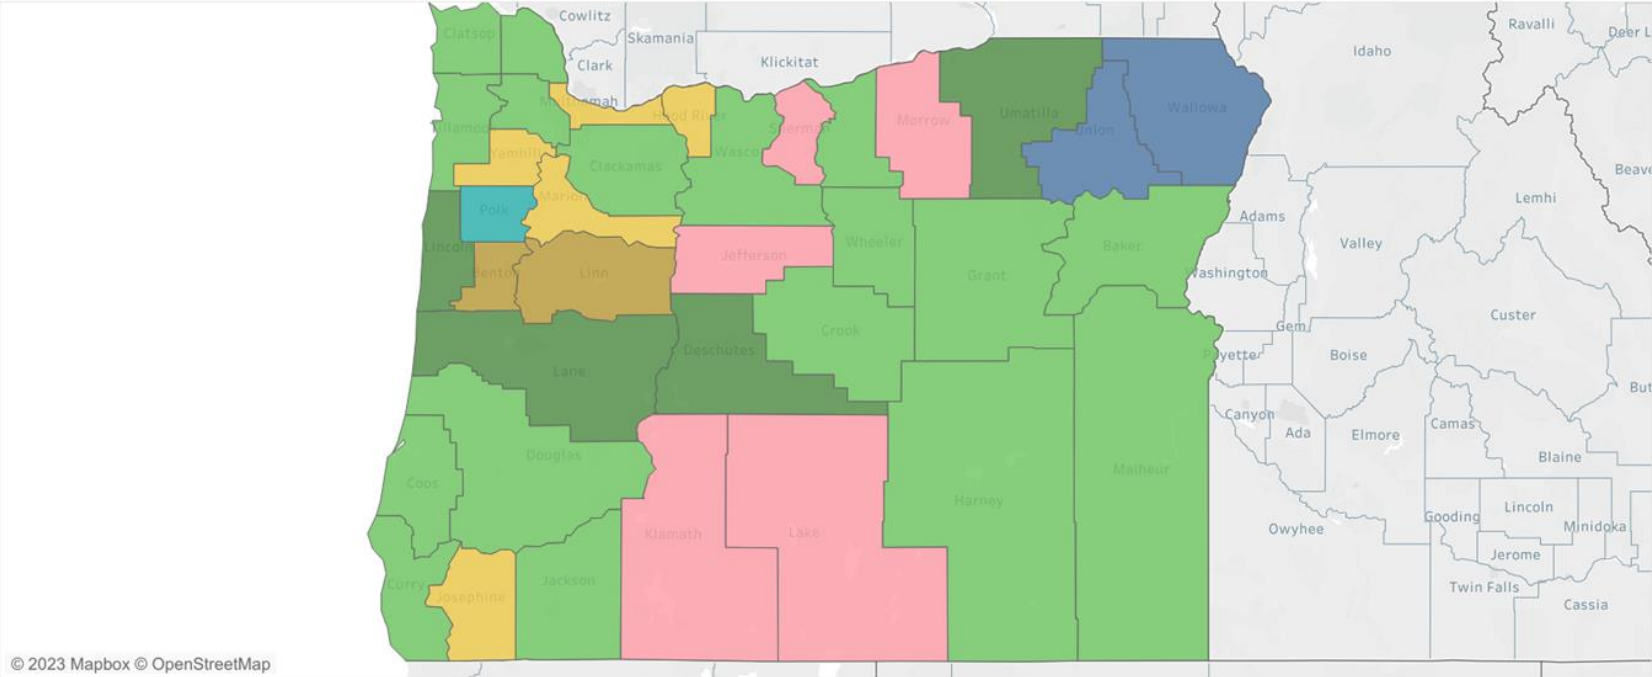

Sequential Intercept Map

What are the benefits of a SIM?

- Facilitates cross-system communication
- Helps identify underused resources
- The Center is tracking recurring gaps across Oregon that can facilitate legislative changes
- Increased probability for grant opportunities

SIM Mapping Progress as of December 2022

- Mapping Type (group)**
- Non OCBHJI SIM
 - Offered
 - Other Mapping
 - SIM Event
 - SIM Planning
 - SIM Remap Planning
 - SIM Remapping

SIMs Completed

Since 2019:

- 18 either updated or new

Since getting contract with OHA:

- 55 throughout Oregon-total

Will have first ever adolescent this year

Most talked about Gaps

- Delays to access treatment
- No local NAMI chapter
- Lack of sufficient housing
- Too few outreach services/Peer services pre-enrollment
- Lack of co-response teams
- No drop-off center except the ER
- Lack of detox
- Limited diversion options
- Lack of consistent screening tools
- Screening information not in electronic format or shared

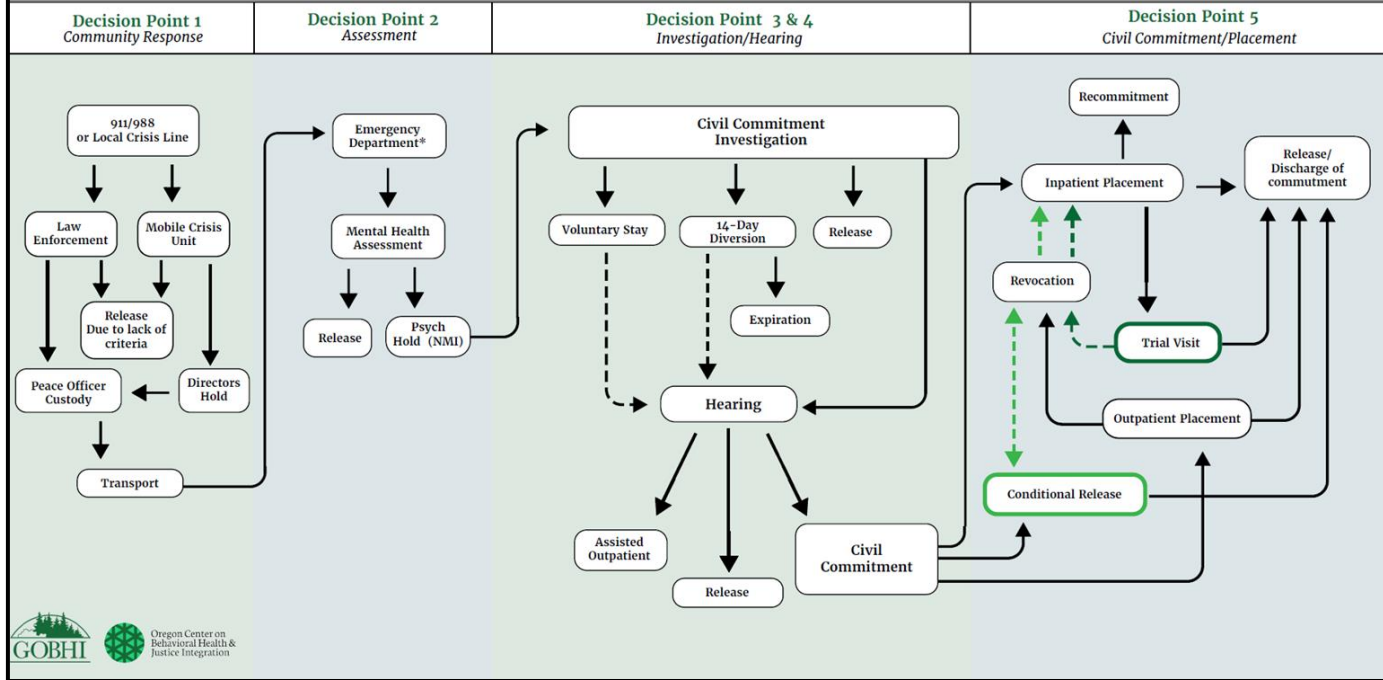

Most talked about Gaps (Continued)

- Lack of specialty courts
- In-Jail Services: medication discontinuity, lack of screening for vets/military
- Courts: over-reliant on treatment courts, co-occurring disorders not understood
- Insufficient prescriptions upon release
- No medical insurance enrollment
- Not connected to community resources
- Limited access to medication-assisted treatment
- Lack of alternatives to technical violations
- Limited specialized caseloads
- High caseloads
- Lack of information sharing with probation

What is Civil Commitment Mapping?

- The Civil Commitment mapping process is inspired by SIM
- It dispels any assumptions that negatively impact working relationships or the effectiveness of the civil commitment process
- Facilitates conversations focused on promoting best possible outcomes while identifying opportunities for improvement
- Action plans are created to overcome identified barriers

Oregon Civil Commitment Map #1

What are the benefits of Civil Commitment?

- Cross-system collaboration
- Continuous improvement
- Better outcomes
- Greater understanding of how someone flows through the system.

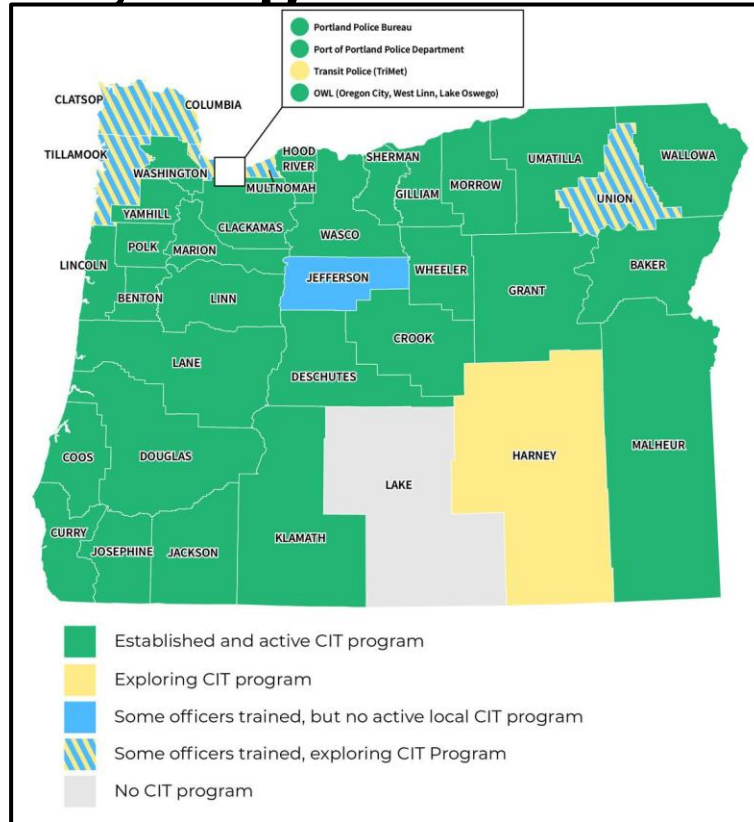

Most talked about Gaps...

- Crisis walk in Centers-Including respite and Case Management/Peer Support
- Long hospital stays due to lack of placement.
- Shortage of Mental Health Examiners.
- Behavioral Health Staffing Shortage.
- Placement: Psychiatric Residential Treatment facilities, high acuity placement, short term placement, adult foster care and outpatient care.

Oregon CIT Overview

- Memphis Model
- 28 county programs
 - Portland Police Bureau (PPB) and Port of Portland programs as well
- 2023 - 489 crisis responders trained in CIT
 - This does not include PPB numbers
- 9 of the 12 EOCCO counties have a CIT program

How many Oregon counties have CIT?

CITCOE

Oregon CIT Center of Excellence

- The Oregon CIT Center of Excellence was formed as a partnership between Greater Oregon Behavioral Health Inc. (GOBHI) and the Dept. of Public Safety Standards and Training (DPSST).
- Ongoing technical assistance and support for Oregon CIT programs
 - Direction, support, creativity, identification of local, state and regional resources, financial assistance, instructor development, presentation assistance, training building, communication efforts, training, fidelity, etc

Current Developments

- First Adolescent SIM Mapping
- Aid and Assist Mapping
- Deflection training
- Adolescent MHFA
- Advanced Deescalation for clinicians
- Trauma informed communication
- CIT certification process
- Anything you would like to see developed?...
